"The best way to get rid of a bad law is to enforce it."—General Grant.

In 1861 the fellows who shouted the loudest and the longest for war were the very fellows who didn't get a gun when the time for shooting came. It will be pretty much that way in 1898, if war should unfortunately be forced upon us.

Hawaii will not be considered neutral ground by the United States in event of war, but will be used as a depot for Naval supplies. After awhile, maybe, there are people who may be convinced that Hawaii ought to be annexed and become a part of the United States.

The real Republican leaders of Cincinnati were "turned down" by the "Goody-goody" last fall, and the result is in the success of the Democratic ticket in that city Monday. A Cincinnati Republican "reformer" is altogether too pure for this latitude. He ought to go to Klondike.

ADMITTER SAMUEL H. STONE is reported to have launched his candidacy for the Republican gubernatorial nomination while attending the launching of the battleships at Newport News. THE LEXINGTON launched Colonel STONE's candidacy nearly two years ago, but somehow or another it hung fire.

It goes without saying that the recent cold snap killed all the fruit, that the clover and the wheat are ruined, that the flowers will not bloom this spring, and that the very old Harry is to pay generally.

In view of these croaks it is thought that peaches will be only six-fifths of a crop.

That a great deal of applejack will occur.

That grapes will grow on vines.

That all the clover will be eaten by horses and cattle.

That \$1 25-a-bushel wheat will part company with 64-cents-an-ounce silver.

And that the unhappy Populist will be unhappy still.

American forests have produced during the past fifty years 994,000,000 feet of lumber, valued at \$25,000,000,000. There are 1,000,000 blind people in the world or one to every 1,500 inhabitants. In England there are 20,000 blind persons, or 870 for each million inhabitants. In Russia and Egypt the blind constitute the largest proportionate number of the population.

"A word to the wise is sufficient," and a word from the wise should be sufficient; but you ask who are the wise? Those who know. The oft repeated experience of trustworthy persons may be taken for knowledge. Mr. W. M. Terry says Chamberlain's Cough Remedy gives better satisfaction than any other in the market. He has been in the drug business at Elton, Ky., for twenty years; has sold hundreds of bottles of this remedy and nearly all other cough medicines manufactured, which show conclusively that Chamberlain's is the most satisfactory to the people and is the best. A typewriter to write Chinese has been invented. It prints about 4,000 characters, which are carried on the edge of twenty to thirty wheels, each about a foot in diameter. The operator strikes two keys to make an impression. The inventor is the Rev. Mr. Sheffield, a Presbyterian minister.

The Osage Indians are the richest community in the world. They number but 1,728 souls, all told—men, women and children; they own 1,500,000 acres of valuable land; have \$9,000,000 in trust with the Government, which pays 5 per cent. interest, and have leases with cattlemen for the use of their pasture lands which bring them between \$40,000 and \$50,000 a year, without counting the rent from the agricultural lands and the proceeds from their own labor. They have so much money that they are lazy, idle and in a state of rapid degeneration.

Rheumatism Cured. My wife has used Chamberlain's Pain Balm for rheumatism with great relief, and I can recommend it as a splendid liniment for rheumatism and other household uses for which it has found it valuable.

What Our Good Friends Have Been Doing Since Our Last Report.

Mr. George Duhany is expected to leave for the West shortly.

Mr. Charles Calvert has moved his small to the neighborhood of Helena.

A Mr. Luman is expected to move from the State of Lewis to our town and ply his vocation in blacksmithing.

Mr. George Beckett has moved his goods from here to Mt. Carmel, which leaves us without a store again.

Mrs. J. L. Savage has been on a visit to her father, Mr. Res Davis, whose wife is said to be partially paralyzed.

The family of the criminal Riggs has scattered and nearly all have found homes after two houses were burned that they had rented and expected to move to. The one they vacated is still standing.

Owing to continued rains, with a late spell of frost, followed by the present cold snap with snow, the farmers are considerably hindered in carrying out their plans for an extensive crop, especially of tobacco. Besides, the work already done in the way of plant beds and plowing is threatened with much damage. Some beds of plants are already reported as killed.

We were pretty well convinced that the fruit crop would be abundant this year and claimed, in spite of the many prophecies of late winter, that there was no winter that we had heard of read of that had been stored up for distribution, but the present spell of March incuring

In the lap of April has completely upset our calculation, and we now think it is a "dog-gone old chance" for peaches, pears and other early blooming fruit to arrive, notwithstanding the bloom came out in the light of the moon. However, it may be a reminder that all signs are liable to fall occasionally.

WALSH—RUDY.

Mr. Harry L. Walsh and Miss Bessie Rudy Married Yesterday Afternoon.

Yesterday afternoon at 3 o'clock Mr. Harry L. Walsh and Miss Bessie Rudy were united in marriage by Rev. F. W. Harrop in a very solemn and impressive ceremony done in the Reverend Divine's most happy style.

The families and a few intimate friends were present to witness the event, and it was a sight commingling the solemnly sweet and the realistically beautiful, so that as the happy young couple were united for life there appeared visible to the mind's eye a future freighted with long years, great happiness, plentiful riches, abundant success and a closing scene of great joy, even extending into the great beyond if they walk as faithful servants during their mortal existence.

The mind of the writer does not revert to the time when he faced a prettier bride, a beautiful girl just budding into the state of womanhood, endowed with traits of heart and mental accomplishments which make her equally well poised in soul, body and spirit. She is the only daughter of Mr. and Mrs. Byron Rudy, and as she stood to make answer to the questions which changed her relations henceforth her loveliness was intensified because she rose in dignity and womanly mind to respond to the all important interrogatories. She was dressed in an exquisite Yale gray cloth, most artistic in fit and beautiful in its simplicity, hat, gloves and flowers to match.

The groom is the eldest son of Mr. and Mrs. John Walsh. He is 23 years old and is one of our worthy young men of whom it is a joy to speak complimentary things, for he is energetic, frugal and fair to be numbered among our successful men in future years.

Mr. and Mrs. Walsh were remembered by their many friends in a lavish manner. The presents displayed were useful, valuable and in kind such as to furnish a cozy home from kitchen to parlor.

They have gone to Chicago for a week's visit to an uncle of the groom. Upon their return they will go to housekeeping in the old Rudy home in the West End.

In Russia it is the custom for duellists to breakfast together before going out to fight.

A newly discovered spot on the sun, visible now, is said to be 30,000 miles in diameter.

Chocolate is still used in the interior of South America for a currency, as are coconuts and eggs.

Accordeons were invented in 1809 by Mr. Damala of Vienna, and a single German firm now manufactures over 17,000 a year.

In Vineland, N. J., is a poet with radical views on the subject of taxation, who has gone to jail rather than pay his poll tax, amounting to \$1.80.

On the average, and taking England and Wales, one person in 73 is a Smith, one in 76 a Jones, and one in 115 a Williams, one in 148 a Taylor, one in 163 a Davis, and one in 174 a Brown.

A new kind of cloth is being made in Lyons from the down of geese, ducks and geese. Seven hundred and fifty grains of feathers make rather more than a square yard of light, waterproof cloth.

From twenty to twenty-five large and small establishments exist in New Jersey for the manufacture of nitro-glycerine, dynamite and other explosives, and both black and smokeless powder.

There is one part of the world at least where bicycles do not meet with approval. This is Morocco, where the Grand Vizier has steadfastly tabooed the use of "such dangerous instruments."

Every ton of Atlantic water when evaporated yields 81 pounds of salt, a ton of Pacific water 79 pounds of salt, Arctic and Antarctic waters yield 85 pounds to the ton, and Dead Sea water 187 pounds.

The leaf of a creeping moss found in the West Indies known as the "life plant" is absolutely indestructible by any means except immersion in boiling water or the application of a red hot iron.

Lemon extract has become a favorite beverage with the Ponca Indians, owing to the quantity of alcohol which it contains, and it is said that they have been able to get roaring drunk on a fifty-cent bottle.

The gross earnings of the L. and N. for the fourth week of March were \$756,375, an increase of \$83,478 over 1907, of \$82,315 over 1906, of \$45,339 over 1905, of \$65,106 over 1904, but a loss of \$41,279 as compared with 1893.

At Richmond the Knights of Pythias, Oddfellows and Ancient Order United Workmen, at their meetings, resolved that if any of their members or their families were stricken with smallpox they should be cared for at the expense of the Lodge, which would build their own hospital and employ their own physician and nurses.

I was reading an advertisement of Chamberlain's Colic, Cholera and Diarrhoea Remedy in The Worcester Enterprise recently, which leads me to write this. I can truthfully say I never used any remedy equal to it for colic and diarrhoea. I have never had to use more than one or two doses to cure the worst case with myself or children.—W. A. There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It takes internally in doses from two drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circular and testimonials. Address, F. J. One thing that attracts many people to Cincinnati is the bargains that Cincinnati merchants advertise in the Cincinnati papers. Maybe Mayville merchants might keep some of this trade in Mayville if they would advertise bargains in the Mayville papers. Suppose you try The Leader.

Superb Photographs!

Uncle Sam's Navy!

The Maine, Captain Sigsbee, the Officers, the Crew, Gen. Lee.

Most Magnificent Collection of Photographs of This Character Ever Offered to the Country.

The public mind has been so mightily stirred by recent events in Cuba, especially by destruction of the battleship Maine and her gallant crew, that the demand for information respecting Uncle Sam's Navy has become exceedingly great, and this strongly reflects the patriotic sentiment of the country. Each Portfolio Will Contain 16 Pages of Pictures and Text Matter.

Printed on heavy plate paper, bound in colored paper cover, and may be obtained upon following conditions: \$2 FORTY-FIVE CENTS IN ADVANCE, and contains the following photographic views, accompanied by full descriptive and historical matter:
